

# KGVB Gives Grants Program

## Keep Grapevine Beautiful

**Full Name** [REDACTED]

**Organization** [REDACTED] Ecology Center

**Title** [REDACTED]

**E-mail** [REDACTED]

**Phone** [REDACTED]

**Address** [REDACTED]  
Grapevine, TX, 76051  
United States

**KGVB's three focus areas are litter prevention, waste reduction and beautification. How will your project advance the mission of at least one of these?**

This project can advance all three of the missions. The signs will encourage the education and appreciation of natural beauty of the ecology center area and importance of conserving our resources. It will also support volunteers that help with trash pick up in the creek.

**How will the project benefit the Grapevine community?**

The project helps community guests feel welcome and a part of the school.

**Program project name.**

Ecology Club Signage

**Project description (4-5 sentences).**

New signage is needed for the [REDACTED] Ecology Center. The project is to include directional signage that will provide helpful navigation for our guests. It will also include signage inside the ecology center: map on main display along with labels and information for features (i.e. pollinator garden, nature trail, pond/waterfall, Veterans Memorial Walk).

**What results are expected and how will you measure success (numbers desired, if possible).**

These type of results are difficult to measure, but a survey of ecology center visitors could measure numbers and experience with the visit and if the visit was improved by addition of the signage.

**Provide a detailed project/program timeline, including start/ending dates, project tasks, roles and responsibilities of volunteers and other participants.**

An Eagle Scout is interested in the sign production for Fall 2023. The Ecology Club members will be involved in planning the locations and copy for the signage.

**How will the project be maintained (i.e. if your project involves landscap- ing is there a plan for irrigation repair? Who will weed?)**

Ecology Club members will be responsible for keeping signs clean. Signs should last for next 20+ years.

**Total amount of sponsorship money available is \$3,000. What amount of money is your organization requesting?**

\$1500

**Provide a detailed project/program budget including a description of how grant funds will be spent. Include amounts from other funding sources. An itemized spreadsheet or table attachment required.**

Trail signs - routed/painted wood and metal posts

Entry signage - metal signs to attach to chain-link fence

Directional signage - metal sign w metal post

**Would partial funding be acceptable?**

Yes

**How would your organization recognize KGVB's contribution to your efforts?**

Instagram photo recognition and KGVB recognition on main display signage.

If possible, please include pictures, drawings or draft layouts of the proposed project as attachments. KGVB requests a progress report (with pictures and any promotional materials) at 60 and 120 days after award. A final report is due within one calendar year of award and should detail project accomplishments.

All applications are due by 5pm on October 12, 2018. Finalists will be contacted by October 20, 2018 and invited to provide a 5-minute presentation to the KGVB board at the November 5, 2018 meeting. Presentation should be a brief overview of project.
